Our national strategy endeavors to increase our footprint from coast to coast, in all 50 states. We are committed to increasing youth participation in the game of golf throughout the U.S., its territories and internationally.

Our Mission

Our goal is to reach beyond the current socioeconomic barriers and increase exposure of America's youth to this great game. Golf crosses over Gender lines and generational gaps. It can be played year-round. The game has a high retention of players and we intend to be the catalyst for the next generation of golfers.

Our Core Values

We believe that the game of golf offers some of life's most valuable lessons, providing a solid platform for social and character development. Through our Match Play Team format we instill our players with the values of teamwork, respect and integrity. These values will influence every aspect of their lives on and off the golf course.
